Dear The Federal Communications Commission,

I would like to urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

Let's face it. Little people and seniors like me just can't keep paying more and more and certainly should not have to pay more than our fair share and thus further subsidize big business and corporate users.

Thank you for your careful consideration of this matter.

Sincerely,

Ben H. Westphal
